

You can now experience the VR on an Oculus Quest or Oculus Quest 2 headset. To do so, you will need an Oculus Quest headset with two controllers:

### Instructions

1. Power up your Oculus Quest, and put it on.
2. Connected the headset to wi-fi, if it's not already.
3. On the Home Screen, select Browser:

4. Navigate to any your space, the space should have already embedded on your website,

5. When the Space has loaded it should have a big “Enter VR” button, that should look like this:

6. Select the Enter VR button. You are now in VR!
7. Select the circles on the floor to move around, using the trigger buttons:

8. If you are seated you may want to use the thumbsticks to quickly rotate your view around.
9. When you are done exploring, click the Menu button on your controller to Exit.
